

INTERNATIONAL ECDIS CONFERENCE "ECDIS - AN EFFECTIVE TOOL FOR SAFE NAVIGATION"

Singapore's first International ECDIS(Electronic Chart Display and Information System) Conference and Exhibition received overwhelming response from the maritime industry. Close to 350 participants from 37 countries including 52 speakers from 17 countries gathered for the three days to promote the use of ECDIS and shared their expertise and experiences on the use of ECDIS for safe navigation. 21 exhibitors also showcased their latest ECDIS and Electronic Navigation Chart products.

Jointly organized by the Maritime and Port Authority of Singapore(MPA) and the United Kingdom Hydrographic Office, the Conference was officially opened by Dr. John Chen, Minister of State for Communications and H.E. Mr. Alan Hunt, British High Commissioner on 26 October 1998 at the Pan Pacific Hotel.

The Conference theme was "ECDIS - An Effective tool for Safe Navigation" and the sessions included "ECDIS - An Efficient Tool For Navigational Safety, Official World Wide Digital Data For Global Shipping, Maritime Digital Chart Data Business, ECDIS For Future Applications, Structured ECDIS Training and Use Of ECDIS For Environmental Monitoring and Protection". The participants felt that the ECDIS Conference was the most comprehensive and informative event held on ECDIS so far.
