

Chief Hydrographer of CHILE calls at JHOD

After attending SCOR(Scientific Committee on Oceanic Research) International Symposium (1–5 October 2002) which was held in Sapporo, Captain Fernando Mingram, the Director(Chief Hydrographer) of the Servicio Hidrografico y Oceanografico de la Armada de Chile(SHOA), called on Dr. Hideo Nishida, Chief Hydrographer of Japan, accompanied by Cmdr. Rodrigo H. Nunez PhD., Head of the department of oceanography in SHOA, on 7 October 2002.

It was rather a short visit but they enjoyed first visit to HOD/JCG and discussed about various topics of common interest, such as analysis system of Multibeam Echosounder data, H.F. Radar Current Mapping, ENC production system, Airborne Laser(or Lidar) Hydrography and JODC Data On-line Service System.

From left: Capt. Mingram, Dr. Nunez, Dr. Nishida Office, explaining analysis system.
