**Information Management for Maritime Activity and Disaster**  
**Prevention for 2008**

Visit to Survey Vessel SYOYO

The JICA Group Training Course on Information Management for Maritime Activity and Disaster Prevention for 2008(International Accredited Category B) started at the Hydrographic and Oceanographic Department of Japan (JHOD), Tokyo on May 11, and it will be conducted till December 4, 2008.

Arrangements for conducting the course are financially supported by the Japan International Cooperation Agency (JICA) and cooperated by Japan Hydrographic Association (JHA). 6 participants from 4 countries, who were selected among many applicants, are now participating in the course training conducted at JHOD for about 7months.

Through this course, participants can acquire knowledge and technique of hydrographic survey for preparing Nautical Charts and the knowledge of concepts of GIS and use the hydrographic survey data for maritime activities and acquire the knowledge of maritime disaster prevention such as Earthquake and Tsunami.
