

**The Launch of the new EAHC website**  
**19<sup>th</sup> July 2010**  
**Centara Grand Mirage Beach Resort, Pattaya, Thailand**

EAHC MSs jointly launched the new EAHC website at the 5<sup>th</sup> EAHC ENC Task Group Meeting in Pattaya, Thailand on 19<sup>th</sup> July 2010.

The EAHC-related websites include the EAHC Permanent Secretariat, SCS ENC, SCS ENC Administration and EAHC ENC Catalogue. They are of useful medium for storing and disseminating of information to the public and MSs. However, they lacked a specific domain name, the marked difference of domain names, the difference of look and feel of each site, and depended upon IT support for creation and management. At the 10<sup>th</sup> EAHC Conference in Singapore in October 2009, the Administrator proposed to consolidate the websites to allow better management and offer greater ease of access to users and MSs. Japan as the EAHC Permanent Secretariat agreed to work with China to unify the EAHC websites.

At the 5<sup>th</sup> EAHC ENC Task Group Meeting MSs appreciated the work of Japan and China in revamping the new EAHC website. China presented the new EAHC website <http://www.eahc.asia> which now housed both the administrative information administered by Japan and technical information administered by China. The site also has enhanced security features and new ENC Catalogue.
